## LEPSINSK ONIMI LLP

Country: Kazakhstan  
Address: Kazakhstan, Lepsi village,  
Sh.Ualikhanov str., 5A  
Phone: +7 (701) 908 22 44  
Email: lepsihoney@gmail.com  
Website: @lepsiorganic

LEPSI  
*organic*  
HONEY

### About the company:

Lepsinsk Onimi LLP was founded in 2016. The company is engaged in beekeeping: receiving, packaging and wholesale and retail sales of products under the brand “Lepsi organic honey”. This is an environmentally friendly product from a picturesque and untouched area in the Dzhungar Alatau mountains, which has a unique taste and rich aroma. The variety is a mountain multi-flower honey. It contains several hundred species of medicinal plants. This is a natural product that has not undergone any heat treatment. Honey is presented in three types of packaging — glass jars, natural linden barrels and design gift boxes.

### About the company:

Astyk Asia Trade Kz LLP is engaged in the purchase, processing and sale of agricultural products such as wheat flour, bran. A separate production line is used for each type of product. Deratization (complex disinfection of warehouses and the mill complex) is carried out monthly in warehouses, which eliminates the possibility of rodents, other animals and their waste products getting into the product. Loading of finished products into wagons is carried out in a bag container, which eliminates the ingress of foreign objects into the product. Our company Astyk Asia Trade Kz LLP has established itself as a reliable and respectable partner. We have been on the market for more than 5 years. We export our products to the Republic of Afghanistan, the Republic of Uzbekistan, etc.

Email: [info.bonaf.uz@gmail.com](mailto:info.bonaf.uz@gmail.com)

Website: [www.bonaf.uz](http://www.bonaf.uz)

### About the company:

Uzbekistan is renowned worldwide for its ancient cities, scholars, and conquerors, as well as its traditional food and bread. Furthermore, Uzbek fruits and vegetables are considered a prime hallmark of Uzbekistan. The unique taste of Uzbek fruits — melons, watermelons, grapes, pomegranates, peaches, and cherries — astonishes people around the globe. However, not everyone has the opportunity to taste authentic Uzbek fruits and vegetables, as their quality can diminish during transportation. The solution in this case is BONA<sup>F</sup>™ freeze-dried products. Freeze-dried fruits and vegetables retain their original taste, shape, and quality over a significant period. Thus, these freeze-dried products from the company can offer you the unique taste of fresh Uzbek fruits and vegetables at any time of the year.

Website: [www.owadanulke.com](http://www.owadanulke.com)

### About the company:

The economic society "Ovadan Ulke" was established and began its production work in 2016 in the Ak Bugday etrap of the Akhal velayat. All production systems in the enterprise comply with ISO 9001:2015 and HACCP management standards and requirements. Our top positions are pickled cucumbers and tomato paste, we also produce spreads of different fat content, canned vegetables, and dessert paste with cocoa. We buy raw materials for mayonnaise and spreads in Europe. Fruits and vegetables from our local farmers. Everybody knows our company's products in Turkmenistan, there is a lot of information about us in mass media and on TV. We want to work on export and are ready to discuss each position on our price list. We need to reach a new level; the export of our products permanently is our goal at the moment. Also, we are constantly working on the expansion and production of new products, this is required of us by the market economy and marketing trends.

# SAUMAL®

### About the company:

The SAUMAL® plant is located in the ecologically clean Osakarovsky district of the Karaganda region and borders on a natural reserve - the Buiratau National Park, which ensures a rich biologically active composition of milk and environmental cleanliness. This plant for the production of freeze-dried mare's milk copies the German plant of Rudolf Storch and was built according to the design of Mr. Zollman, who agreed to sell the milk processing technology and act as the chief technologist-consultant of the project. This project combines and realizes all the advantages of German technologies, high quality standards, as well as the unique traditions of our ancestors and the natural potential of Kazakhstan. The SAUMAL® plant is a combination of careful treatment of animals and the most modern technologies.

SAYAKI BLACK RAISINS

Raisin Golden

#### О компании:

Fudagro LLC is a plant for processing dried fruits and nuts in the northern part of Uzbekistan. The factory produces a wide range of dried fruits and nuts, such as: dried apricots, fruit mixtures, dried apples, dried pears, chopped dried fruits, etc. One of the most important production areas of our company is the production of dried apricots. Our factory is located on 3 hectares, in an ecologically clean region of Uzbekistan, in the north of the country in the city of Nurafshon. All products produced by our factory are natural, do not contain GMOs and have an excellent taste. The factory is equipped with the most modern Western-made equipment. The production is equipped with a modern computer laboratory that provides continuous monitoring of incoming raw materials and manufactured products. Our factory employs highly qualified specialists. Our company mainly exports dried fruits to the Russian Federation, Kazakhstan, Belarus and some countries of the European Union.
