SAFIYA

## About the company:

Astyk Asia Trade Kz LLP is engaged in purchasing, processing and selling agricultural products such as wheat flour and bran. A separate production line is used for each type of product. Deratization (complex disinfection of warehouses and mill complexes) is carried out monthly, eliminating the possibility of rodents, other animals and their waste products getting into the product. Loading of finished products into wagons is carried out in a bag container, which eliminates presence of foreign objects in the product. Astyk Asia Trade Kz LLP has established itself as a reliable and respectable partner, exporting to Afghanistan, Uzbekistan and other destinations for five years.

SAUMAL®

## About the company:

The SAUMAL® plant is located in the ecologically-clean Osakarovsky district of Kazakhstan's Karaganda region, and borders on a natural reserve — the Buiratau National Park — which ensures a rich biologically active composition of milk and environmental cleanliness. This plant producing freeze-dried mare's milk copies the German plant of Rudolf Storch, and was built according to the design of Mr. Zollman, who agreed to sell the milk processing technology and act as the project's chief technologist-consultant. This project combines and realizes all advantages of German technologies, high quality standards, as well as the unique traditions of our ancestors and Kazakhstan's natural potential. The SAUMAL® plant combines careful treatment of animals, and the most modern technologies.

## TUTI POMIR LLC

Country: Tajikistan

Address: Tajikistan, GBAO Shugnansky district, Jamoat Suchon, Village Bogiev

Phone: +992 987378558

Email: [info@pamir.tj](mailto:info@pamir.tj)Website: [www.pamir.tj](http://www.pamir.tj)

## About the company:

The 'TUTI POMIR' company produces its natural 'Mulberry from the Pamirs' snack bars, with berries hand-picked on the slopes of the Pamir Mountains at an altitude of more than 2,000 meters. No chemical fertilizers are used during cultivation, and no additives are used during processing, meaning the bars are absolutely natural with no sugar, preservatives, dyes, artificial flavors, gluten or GMOs. No heat treatment is used in producing the bars, so they are suitable for raw foodists.

**MAXIPRO**  
PROBIOTIC

## About the company:

Maxipro is a new innovative product in the healthy nutrition sphere, with its factory being the only current national operation specializing in producing probiotic dairy products. The probiotic was developed by a Kazakh military physician microbiologist, who used it in treating wounded soldiers during the Afghan War, and also in the aftermath of the Chernobyl nuclear disaster. We employ cutting-edge technologies and strict quality control at all production stages, ensuring our products' effectiveness and safety. Additionally, we possess all relevant certificates, and undergo thorough inspections to validate our product quality.

HONEY

### About the company:

Lepsinsk Onimi LLP was founded in 2016. The company is engaged in beekeeping — receiving, packaging, and selling its 'Lepsi organic honey' product in wholesale and retail markets. This is an environmentally-friendly product from a picturesque and untouched area of the Dzhungar Alatau mountains, with a unique taste and rich aroma. The variety is a mountain multi-flower honey, originating from several hundred species of medicinal plants. This is a natural product that has not undergone any heat treatment. The honey is presented in three types of packaging — in glass jars, natural linden barrels, and gift boxes.
